FOREWORD

Government organisations procure various goods and services and execute works to fulfil their duties and responsibilities. To improve good governance, transparency, fairness, competition, and value for money in public procurement, the Government of India has taken a number of significant policy initiatives in public procurement in the recent past. The General Financial Rules were revised comprehensively in March 2017, covering inter-alia this set of new initiatives. Consequently, the Manual for Procurement of Goods, 2017; Manual for Procurement of Consultancy and Other Services, 2017 and Manual for Procurement of Works, 2019 were also developed.

2. Tender documents are the ultimate vehicle for implementing such policy initiatives on the ground. If all procurements use a uniform set of tender documents, the impact of policy initiative gets amplified, bringing economies of scale and increased competition. Bidders also get broader market access for their products.

3. Therefore, this Model Tender Document (MTD) has been developed for the procurement of Goods. This MTD rationalises and simplifies the usual structure of tender documents. Besides aligning its provisions with various procurement policies, it incorporates national and international best practices and breaks some new ground. In two stages, extensive consultations were done with Ministries/ Departments/ Central Public Sector Undertakings (CPSUs), other organisations and individuals to develop this document. A unique feature of this MTD is its availability as a software template which can be customised with the names and requirements of user organisations.

4. Detailed guidance is provided at appropriate places in the MTD, and a separate detailed Guidance Note is also attached to help the procuring officials.

5. MTDs issued by this Department are to be taken as guiding templates. Ministries/ Departments are advised to suitably customise this document to suit their local/ specialised needs. Government e-Marketplace (GeM), Central Public Procurement Portal (CPPP) and other e-procurement portals are expected to host this MTD on their portals so as to help procuring entities to customise and make use of the MTD. This is first edition of the MTD and this Department welcomes any suggestion or comment on this document for further improvement.

6. I would like to acknowledge the lead taken by Shri Sanjay Aggarwal, Advisor (PPD), Shri Kanwalpreet, Director (PPD) and the role of Shri Girish Bhatnagar, Consultant (Public Procurement) in the development of this Model Tender Document. I would also like to thank Ministries, Departments, other organisations, and individuals who reviewed the drafts of the Model Tender Document and provided their valuable inputs.

7. I hope that this Model Tender Document will help procuring officials working in various Ministries/ Departments and Public Enterprises as a guiding template, deepen the impact of policy initiatives mentioned above and improve the ease of doing business with the Government.

- (c) **The margin of purchase preference:** The bid price quoted by Class-I Local Supplier should be within this percentage from the L-1 price quoted by Non-local or Class-II bidders for being eligible for purchase preference.
- 2) If not so declared, the default threshold shall be as follows:
 - (a) Local content for eligibility for Class-I; Class-II local Suppliers and Non-local Suppliers shall be 50% and above; 20% and above but less than 50%; and less than 20%, respectively.
 - (b) Minimum local content for eligibility to participate shall be 50%,
 - (c) The margin of purchase preference shall be 20%

4.1.5 Purchase preference to Class-I local Suppliers

- 1) For goods and works where the Goods are divisible by nature:
 - (a) Among all qualified bids, the lowest bid shall be termed as L-1. If L-1 is 'Class-I local Supplier', the contract for full quantity shall be awarded to L-1.
 - (b) If the L-1 bid is not a 'Class-I local Supplier', 50% of the order quantity shall be awarded to L-1. After that, the lowest bidder among the 'Class-I local Supplier' whose quoted price falls within the margin of purchase preference shall be invited to match the L-1 price for the remaining 50% quantity, and a contract for that quantity shall be awarded him, subject to matching the L-1 price. In case such lowest eligible 'Class-I local Supplier' fails to match the L-1 price or accepts less than the offered quantity, the next higher 'Class-I local Supplier' within the margin of purchase preference shall be invited to match the L-1 price for the remaining quantity and so on, and the contract shall be awarded accordingly. If some quantity is still left uncovered on Class-I local Suppliers, such balance quantity shall also be ordered on the L-1 bidder.
- 2) For goods and works where the Goods are not divisible, and in the procurement of services where the bid is evaluated on price alone:
 - (a) Among all qualified bids, the lowest bid shall be termed as L-1. If L-1 is 'Class-I local Supplier', the contract shall be awarded to L-1.
 - (b) If L-1 is not 'Class-I local Supplier', the lowest bidder among the 'Class-I local Supplier' shall be invited to match the L-1 price subject to Class-I local Supplier's quoted price falling within the margin of purchase preference, and the contract shall be awarded to such 'Class-I local Supplier' subject to matching the L-1 price.
 - (c) If such lowest eligible 'Class-I local Supplier' fails to match the L-1 price, the 'Class-I local Supplier' with the next higher and so on, bid within the margin of purchase preference shall be invited to match the L-1 price, and the contract shall be awarded accordingly. If none of the 'Class-I local Supplier' within the margin of purchase preference matches the L-1 price, the contract shall be awarded to the L-1 bidder.

- 3) Where parallel contracts are to be awarded to multiple bidders: In Bids where parallel contracts are to be awarded to multiple bidders subject to matching of L-1 rates or otherwise, the 'Class-I local Supplier' shall get purchase preference over 'Class-II local Supplier' as well as 'Non-local Supplier', as per following procedure:
- (a) If there is sufficient local capacity and competition for the item to be procured, as notified by the nodal Ministry, only Class I local Suppliers shall be eligible to bid. As such, the multiple Contractors, who would be awarded the contract, should be all and only 'Class I Local Suppliers'.
 - (b) In Bids, other than those mentioned above, 'Class II local Suppliers' or both 'Class II local Suppliers' and 'Nonlocal Suppliers' may also participate in the tender process along with 'Class I Local Suppliers'. If 'Class I Local Suppliers' qualify for the contract award for at least 50% of the tendered quantity in tender, the contract shall be awarded to all the qualified bidders as per award criteria stipulated in the Tender Documents. However, in case 'Class I Local Suppliers' do not qualify for the award of contract for at least 50% of the tendered quantity as per award criteria, purchase preference should be given to the 'Class I local Supplier' over 'Class II local Suppliers'/'Non-local Suppliers' provided that their quoted rate falls within the margin of purchase preference of the highest bid considered for award of contract. To ensure that the 'Class I Local Suppliers' taken in totality are considered for award of contract for at least 50% of the tendered quantity, first purchase preference has to be given to the lowest among such eligible 'Class-I local Suppliers', subject to its meeting the prescribed criteria for the award of contract as also the constraint of the maximum quantity that can be sourced from any single Contractor. If the lowest among such 'Class-I local Suppliers' does not qualify for purchase preference because of aforesaid constraints or does not accept the offered quantity, an opportunity shall be given to next higher among such 'Class-I local Supplier', and so on.

4.1.6 Verification of local content and violations:

the case may be, including any taxes, duties, levies etc., freight, transit Insurance, loading/ unloading/ stacking, insurance etc.

- 4) If any bidder offers conditional discounts/ rebates in his bid or suo motu discounts and rebates after the Bid Opening (techno-commercial or financial), such rebates/ discounts shall not be considered for ranking the offer. But if such a bidder does become L-1 without discounts/ rebates, such discounts/ rebates shall be availed and incorporated in the contracts;

- 6) As per policies of the Government, from time to time, the Procuring Entity reserves its option to give purchase preferences to eligible categories of Bidders as indicated in the Tender Document.

The Procuring Entity shall not be responsible for any misclassification of HSN Number or incorrect GST rate if quoted by the bidder. Any increase in GST rate due to misclassification of HSN number shall have to be absorbed by the supplier; and
 - (c) If GST is quoted extra, but with the provision that it shall be charged as applicable at the time of delivery, the offer shall be evaluated for comparison purposes by loading the maximum existing rate of GST for the product/ HSN code.
- 8) **Price Variation:** If the tenders have been invited on a variable price basis, the tenders shall be evaluated, compared, and ranked based on the position as prevailing on the last deadline for techno-commercial bid submission and not on any future date.
- 9) **Ambiguous Financial bid:** If the financial bid is ambiguous and leads to two equally valid total price amounts, it shall be rejected as nonresponsive.

12.4.2 Global Tender Enquiry (GTE, International Competitive Bidding)

If stipulated in the TIS/ AITB that this is a Global Tender Enquiry (International Competitive Bidding), the following additional aspects of the evaluation of the financial offer shall also apply:

1) Currency of Tender

2) Evaluation of Offers

- (a) For financial evaluation, all Bids shall be converted to Indian Rupees based on the "Bill for Collection (BC) selling" exchange rate on the last deadline for the bid submission (Techno-commercial offer) from a source as specified (State Bank of India, if not so specified) in the Tender Documents. The offers would be compared based on the principle of the total outgo from Procuring Entity's pockets, including all applicable taxes and duties (Customs duty, IGST, and GST Cess). For bids with Letter of Credit (LC) payment, the likely LC charges (as ascertained from the Procuring Entity's bankers) should also be loaded. Import of Goods or services or both attract integrated tax (IGST). The IGST rate and GST cess shall be applicable on the 'Custom Assessable Value' plus the 'Basic Customs duty applicable thereon'.
- (b) The bidders are to quote prices based on FOB, FAS, CIF, or DDP basis as stipulated in the Tender Document. The terms FOB, FAS, CIF, DDP etc., shall be governed by the rules & regulations prescribed in the current edition of INCOTERMS, published by the International Chamber of Commerce, Paris.
- (c) If there are no domestic bidders, a comparison of foreign offers can be made based on CIF/ DDP/ landed costs since the rest would be the same for all bidders, provided the port of entry is the same for all bidders.
- (d) Unless otherwise stipulated, foreign bidders shall indicate the break-up of prices for freight, insurance, customs duty, port handling charges, clearing agency charges, related ITC (HS) code, IGST/ GST cess, related HSN code, as relevant to quoted price basis.
- (e) If both Indian and foreign bidders have quoted in the tender, the comparison of the offers would be done based on FOR/ FOT destination, including all applicable taxes and duties (on the principle of the total outgo from Procuring Entity's pockets). In the case of FAS/ FOB offers, the freight and insurance shall be (after ascertaining, if not quoted) added to build up the CIF cost. For arriving at the DDP cost, notional one percent shall be added over and above CIF price as port handling charges and adding thereon customs duty and clearing agency charges. To bring DDP cost to FOR/ FOT destination cost, GST, GST Cess, as applicable on the date of opening of the

tender, and inland freight would be added. The FOR/ FOT destination price for domestic offers may be calculated as in indigenous tenders.

12.4.3 Evaluation Process in Tender cum e-Reverse Auction

If it is specified in TIS/ AITB that this is a Tender cum e-Reverse Auction Tender Process then, the e-Reverse Auction process shall be mandatorily conducted on the same portal after the financial bid opening (declaration of L-1 landed price/ s), provided the number of valid bidders is not less than the stipulated number (3 if not specified). Unless otherwise stipulated following procedure shall be followed:

1) Shortlisting of bidders eligible to participate in e-Reverse Auction:

- (a) The bids disallowed from participating in the Reverse Auction(e-RA) shall be the highest bidder(s) in the tabulation of prices in the financial bid. If the highest bidders quote the same rate, the Price Offer received last, as per the time log of the Portal, shall be removed first, on the principle of last in first out by the system.
- (b) If the number of valid bidders is less than the minimum stipulated number (or 3 if not specified), a Reverse auction shall not be conducted, and the financial bids shall be evaluated. In the case of 4 to 6 valid bidders lowest three (3) bidders shall be allowed to participate in the reverse auction. In the case of more than 6 valid bidders, only 50% of the bidders (rounded up to next integer) shall be allowed to participate.
 - (c) However, if MSE bidders or Class-I Local suppliers under the Make in India policy do not come under the above criteria, but their prices in financial bids are within the policy's margin of preference, they shall be allowed to participate. Such bidders would be over and above the short-list mentioned above.

2) Reverse Auction Process (RAP)

Note: If the Portal RAP process is different from the one described below, the portal provisions shall prevail.

- (a) Upon opening the financial bids, a reverse auction platform shall be created. The reverse auction shall start within the specified period (two hours if not specified) of the bid. There shall be no participation fees for the e-Reverse auction.
- (b) Unless modified by TIA, L-1 landed price in financial bid (as per the calculation schema based on the Tender Document evaluation criteria) shall be the start bid price on which the auction shall be initiated.
- (c) The TIA shall specify the decrement value before starting the e-Reverse Auction (or, if not specified, 0.5% of the start bid price rounded off to the next unit, tens, hundreds, thousands etc., with a minimum of Rs. 1). The reduction shall have to be made as per decrement value or in multiple thereof.

- (d) An initial period of the reverse auction shall be as stipulated (or two hours if not specified). All times and periods are as per server time-stamp. There shall be auto extensions of time by specified minutes (ten minutes if not specified) in case of any reduction recorded in the last auto-extension period. The Maximum number of auto extensions shall be as stipulated (or 50 if not stipulated).
- (e) In case of service disruption at the service provider's end during the reverse auction, the reverse auction process shall start all over again, with the last recorded lowest price of prematurely ended RAP as the 'Start bid' price. The prices quoted in the prematurely ended RAP shall be binding on all the bidders for consideration if the restarted process does not trigger within the stipulated time (or by 5.00 pm on the same day, if not stipulated). Disruption and restarting of RAP shall be intimated to all the bidders through system/ SMS/ e-mail through the e-procurement portal.
- 3) Bidders must submit only the landed price in the reverse auction, and only the item-wise L-1 price shall be displayed without disclosing the number of bids and names of the bidders. The landed price would not be the same for two bidders, even if any bidder makes such an attempt. While evaluating the bids, the exchange rate captured by the e-procurement system shall be considered for converting foreign currency into Indian Rupees.
- 4) On the auction's closing time expiry, the bid history showing all the last valid bids offered along with the name of the bidders shall be published. All bidders shall have the facility to see and get a print of the same for their record.
- 5) All electronic bids submitted during the reverse auction process shall be legally binding on the bidder. Only the chronologically last bid submitted by Bidder until the end of the auction shall be considered the valid financial bid of Bidder, and consideration of the same for entering into a contract by the Procuring Entity shall bind on the bidder. If a bidder does not submit his bid in the Reverse Auction, the price quoted in the financial bid shall be considered the valid price of that bidder. The status of Bidder (L-1, L-2 etc.) shall be evaluated considering either the bid price submitted in Reverse auction or the Price quoted in the financial bid, whichever is lower.
- 6) The successful L-1 bidder, after the reverse auction, has to upload within a stipulated period (within 2 working days, if not specified) the breakup of Landed Prices in the shortfall documents, at which the contract shall be awarded. While giving the breakup, the Bidder shall include the same taxes and duties as quoted while submitting the financial bid. If the L-1 bidder fails to submit the breakup of landed price within the stipulated period, the Procuring Entity shall place an order based on the breakup of the financial bid submitted by Bidder, and the same shall be binding on the bidder.

7) Purchase Preference

Short-listed bidders, eligible for any purchase preference policy as per the Tender Document, shall get an opportunity to match the L-1 prices concluded after the reverse auction if their final prices in Reverse Auction fall within the permitted percentage.

12.4.4 Cartel Formation/ Pool Rates

- 1) Unless the Procuring Entity decides this to be a case of Cartel/ Pool Rates, if more than one bidder quote the same total evaluated price, then the Procuring Entity reserves its right to distribute unequal quantities among the bidders - excluding one or more bidders, based on considerations like performance/ financial capabilities, the distance of destination godowns from the location of the factories, production capacities, any extra features/ benefits offered etc.
- 2) If Procuring Entity decides this to be a case of Cartel/ Pool Rates, leading to "Appreciable Adverse Effect on Competition" (AAEC) as identified in Competition Act, 2002, as amended from time to time, it reserves its rights to:
 - (a) order any quantity on any one or more bidders without assigning any reason thereof.

And/ or

- (b) consider it as a violation of the Code of Integrity and reject the bid(s) as nonresponsive in addition to other punitive actions provided in this regard in the Tender Document. In addition to such remedies, the Procuring Entity also reserves the right to refer the matter to the Competition Commission of India (CCI) for obtaining necessary relief. In addition, the attention of the bidders is drawn to Chapter VI of the "The Competition Act 2002", which deals with Penalties. Such actions shall be in addition to other rights and remedies available to the Procuring Entity under the contract and Law.

12.4.5 Reasonableness of Rates Received

Procuring Entity shall evaluate whether the rates received in the Bids in the zone of consideration are reasonable. If the rates received are considered abnormally low or unreasonably high, it reserves its right to take action as per the following sub-clauses, or as per ITB-clause 2.3, reject any or all Bids; abandon/ cancel the Tender process and issue another tender for the identical or similar Goods.

12.4.6 Consideration of Abnormally Low Bids

An Abnormally Low bid is one in which the bid price, in combination with other elements of the bid, appears so low that it raises substantive concerns as to the Bidder's capability to perform the contract at the offered price. Procuring Entity shall in such cases seek written clarifications from the Bidder, including detailed price analyses of its bid price concerning scope, schedule, allocation of risks and responsibilities, and any other requirements of the Tender Document. If, after evaluating the price analyses, procuring entity determines that Bidder has substantively failed to demonstrate its capability to

deliver the contract at the offered price, the Procuring Entity shall reject the bid/ proposal, and evaluation shall proceed with the next ranked bidder.

12.4.7 Price Negotiation

Usually, there shall be no price negotiations. However, the Procuring Entity reserves its right to negotiate with the lowest acceptable bidder (L-1), who is techno-commercially suitable for supplying bulk quantity and on whom the contract would have been placed but for the decision to negotiate. This right shall also apply to post eReverse Auction process.

13. Award of Contract

13.1 The Procuring Entity's Rights

13.1.1 Right to Vary Quantities at the Time of Award

At the time of contract award, the Procuring Entity reserves the right to increase or decrease, without any change in the unit prices or other terms and conditions of the bid and the Tender Document, the quantity of Goods originally stipulated in Section VI: Schedule of Requirements, provided this increase/ decrease does not exceed 25 (twenty-five) percent of tendered quantity (or any other percentage indicated in the Tender Document).

13.1.2 Parallel Contracts or Splitting of Award

The Procuring Entity reserves its right to split the quantities and conclude Parallel contracts with more than one bidder (for the same tender) in the following circumstances:

- 1) Unless otherwise stipulated in TIS/ AITB, there shall be no parallel orders or splitting quantities among more than one Bidders.
- 2) After due processing, if it is discovered that the quantity to be ordered is far more than what L-1 alone is capable of supplying and there was no prior stipulation in the Tender Document for parallel contracts, then it reserves its rights to distribute the quantity being finally ordered, among the other bidders by counter offering the L-1 rate to willing L-2 or higher bidders, in a transparent manner to avail full assessed capacities of lower-priced bidders first, before inviting higher-priced bidders. The decision of Procuring Entity shall be final.
- 3) However, if the Tender Document stipulates such parallel contracts due to the critical/ strategic/ specific nature of the supplies/ Goods, the manner of deciding relative share of the lowest bidder (L-1) and the rest shall be clearly defined, along with the minimum number of Bidders sought (subject to availability of suitable bids meeting the requirements) for the contract. In such cases, the bidders should not quote for less than 25% of the tendered quantity; otherwise, their offer shall be rejected as nonresponsive. Unless otherwise stipulated in the AITB, in case of splitting in two and three, the ratio of 70:30; 50:30:20, respectively shall be used. These ratios are approximate, and the Procuring Entity reserves its right to marginally vary quantities to suit capacity/ past performance

of the bidder/ unit loads of packing or transportation/ relative ranking of the bids/ delivery period offered/ existing load of Bidder and other similar factors affecting smooth supplies as per requirements.

13.1.3 Additional Conditions for Rate Contracts

If stipulated expressly in the TIS/ AITB that this is a Tender Process to enter into "Rate Contract(s)" for the supply of Goods, then the following additional conditions shall be applicable:

- 1) The conditions governing the resultant Rate Contract would be as per G.C.C-clause 6.8. The "Fall Clause" as described in the G.C.C-clause 10.1.6 shall be expressly applicable in Rate Contracts.
- 2) Unless otherwise specified, the currency of a Rate Contract would be for one year.
- 3) **Parallel Rate Contracts:** Procuring Entity reserves the right to conclude more than one rate contract for the same Schedule/ Goods. The procedure for negotiation and counter-offering for concluding parallel rate contracts would be as follows.
 - (a) Initially, the rate contract would be awarded to the L-1 Bidder. Then the price of L-1 shall be counter-offered to the higher quoting responsive Bidders (under intimation to L-1), asking them to send their revised Bids online on the e-procurement portal to be opened at a specified place, date, and time (as per the standard procedure). L-1 Bidder would be specifically informed that it may, if it so desires, reduce its price and send its revised Bid accordingly. The Bidders, who accept the counter-offered rate or rate lower than that, would be awarded parallel rate contracts. If L-1 Bidder lowers its rate in its revised offer, the same would also be accepted with effect from that date, and its rate contract amended accordingly.
 - (b) In the case where parallel rate contracts are necessary, but even the lowest responsive Bidder (L-1) price is not reasonable. In that case, price negotiation may be conducted with L-1 Bidder in the first instance. If the L1 Bidder agrees to bring down the price to the desired level, a rate contract would be concluded with it, and parallel rate contracts would be concluded as per the sub-clause above. If, however, L1 Bidder does not agree to reduce its price in the first instance itself, then the price, which has been decided as reasonable, would be counter-offered to all the higher quoting responsive Bidders (including L-1) for further action on the above lines.
 - (c) All such parallel rate contracts would be released transparently and simultaneously.
- 4) The quantities mentioned in the tender in Section- I (N.I.T.) and Section-VI (Schedule of Requirements) are indicative without any commitment on a rate-contract basis, as detailed in G.C.C-clause 6.8.

13.2 Letter of Award (Acceptance - LoA) and Signing of Contract

13.2.1 Selection of Successful Bidder(s)

13.2.2 Verification of Original Documents

Before issuing a Letter of Award (LoA) to the successful Bidder(s), the Procuring Entity may, at its discretion, ask Bidder to submit online for verification the originals of all such documents whose scanned copies were submitted online along with the Technical bid. If so decided, the photocopies of such self-certified documents shall be verified and signed by the competent officer and kept in the records as part of the contract agreement. If the Bidder fails to provide such originals or in case of substantive discrepancies in such documents, it shall be construed as a violation of the Code of Integrity. - 2) If the contractor, having been called upon by the Procuring Entity to furnish Performance Security, fails to do so within the specified period, it shall be lawful for the Procuring Entity at its discretion to annul the award and enforce Bid Securing Declaration (in lieu of forfeiture of the Bid Security), besides taking any

other administrative punitive action like 'Removal from List of Registered Suppliers' etc.

- 3) If the bidder, whose bid is the lowest evaluated bid withdraws or whose bid has been accepted, fails to sign the procurement contract as may be required or fails to provide the security as may be required for the performance of the contract or otherwise withdraws from the procurement process, the Procuring Entity shall cancel the procurement process. If the Procuring Entity is satisfied that it is not a case of cartelization and that the integrity of the procurement process has been maintained may offer the next successful bidder an opportunity to match the financial bid of the first successful bidder, and if the offer is accepted, award the contract to the next successful bidder at the price bid of the first successful bidder.

The name and address of the successful Bidder(s) receiving the contract(s) shall be published in the Portal and notice board/ bulletin/website of the Procuring Entity.

14. Grievance Redressal/ Complaint Procedure

- 2) Within 5 working days of receipt of the complaint, the Tender Inviting Officer shall acknowledge the receipt in writing to the complainant indicating that it has been received, and the response shall be sent in due course after a detailed examination.
- 3) The Tender Inviting Officer shall convey the final decision to the complainant within 15 days of receiving the complaint. This Guidance note would help customise the Model Tender Document for your Organisation and each specific procurement of Services.

Guidance Note for Procuring Entities

Guidance Note for the Goods - Model Tender Document

1. Applicability

1.1 This document is advisory and aims to facilitate Procuring Entities in preparing Tender Document for Procurement of Goods. The document is based on General Financial Rules 2017, Manual for Procurement of Goods 2017 as amended until publishing. This document does not intend to replace alternative Tender Document as agreed (if any) with the Multilateral Development Banks (MDBs), i.e. The World Bank, Asian Development Bank etc., for procurements financed by loans/ grants extended by such MDBs.

1.2 This Document is for use by Central Government Ministries/ Departments and their attached and subordinate offices, Central Public Sector Entities, Autonomous Bodies and Statutory Bodies. There is no restriction on its adoption by State Governments or other agencies

1.3 Major Goods procuring Ministries/ Departments inter-alia Ministry of Defence; Ministry of Railways and certain large CPSEs, who have well-established Tender Documents for their unique individual requirement may continue to use such documents. They may, however, use this document for guidance to revise their documents.

1.4 The Model Tender Document is generic for open tenders through the GePNIC portal. It is not suitable for procurement below the threshold for Open Tender (Rs 25 Lakh, or any other amount in your Schedule of Powers), which require only a short Tender Document.

2. Nomenclature Conundrum

There is no standardised nomenclature in Public Procurement in India, and a mix of American, European, and British/ Indian nomenclature has become common. 'Tender' is taken to mean (i) 'Tender Document' or 'Tender Process' as well as (ii) the 'Bid' submitted by the bidders. The Tender Document floated by Procuring Entity is also called a Bid Document. Similarly, participants in a Tender are alternatively called tenderers and bidders. This duality is reflected in "Notice Inviting Tenders' and 'Instructions to Bidders' etc.

Although this is not an appropriate forum to discuss this topic in detail that it deserves, an attempt is made to standardise for this document 'Tender' for the (i) above and Bid for (ii) and hence Bidder is used instead of Tenderer, and the document is being called 'Tender Document' instead of 'Bid Document'. Similar attempts are made to standardise other nomenclature in this document without disturbing the nomenclature embedded in the CPPP portal.

3. The process to modify Custom fields in the Model Tender Document to suit your Organisation and a specific procurement

3.1 Certain generic variables used throughout the document are embedded as the Custom fields in the word file. These fields (refer para 4 and 6 below) can be changed

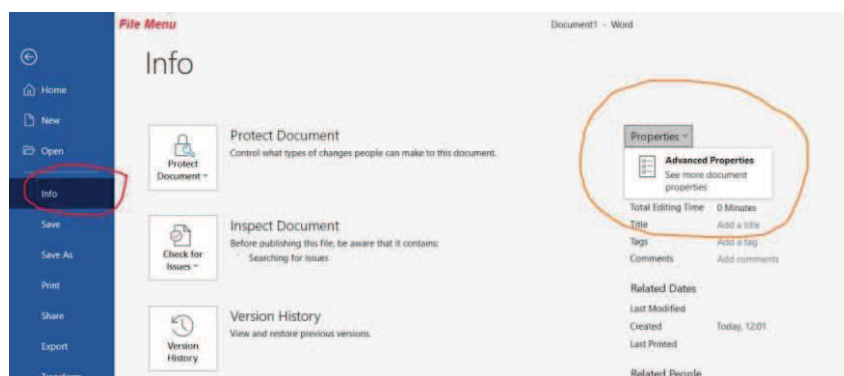

Guidance Note for Procuring Entities

in one go throughout the document (including headers and footers) to suit your Organisation. The process to change these fields in the Model Tender Document file is as follows:

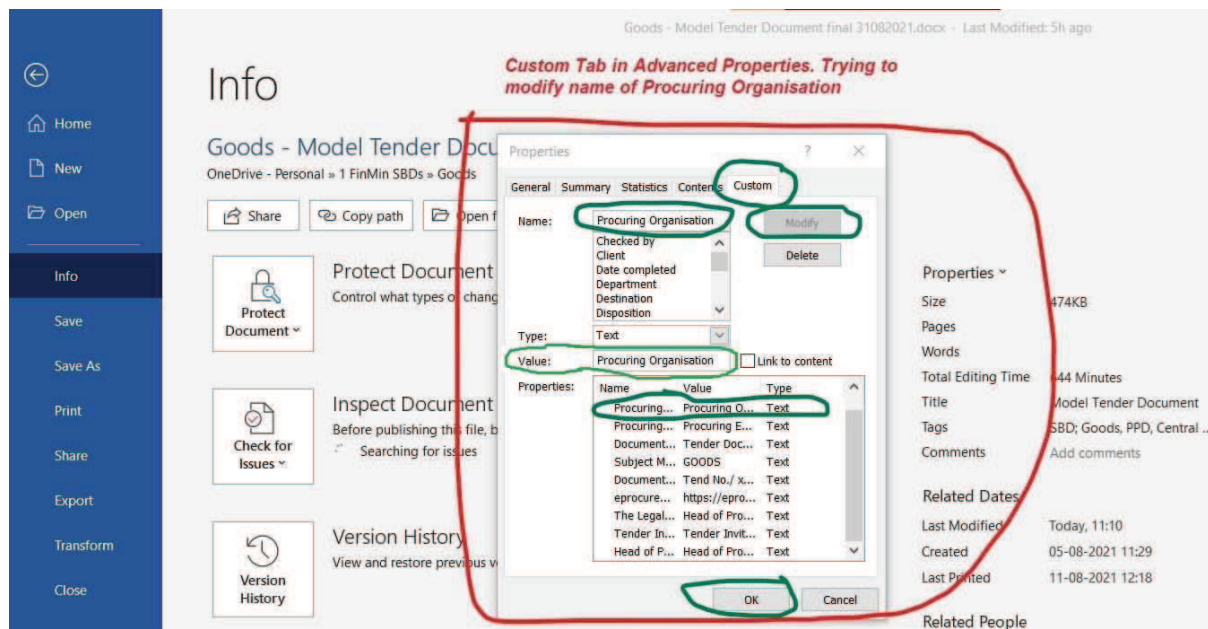

- a) Click 'File' (top left) menu, and in the "File" menu, select 'Info' (4th from top) on the left side panel

- b) On the right-side panel of Info is 'Properties' and dropdown to click 'Advanced Properties'

- c) Select the 'Custom' tab in 'Advanced Properties'.
- d) Select the specific property in the custom tab and 'Modify' in the 'value' box and click 'OK' to save.

- e) Make such changes to all the fields to be changed.
- f) To populate these changed fields throughout the document (including headers or footers): from the editing menu, 'select all' (or Ctrl+A to select all text) to select the whole document.

- g) Press F9 to update all fields (some computers need Fn+F9). Verify if changes have occurred in the document.
- h) Save the Model Tender Document file under a new name.

4. Customise Model Tender Document to serve as a Model Tender Document for your Organisation.

Firstly, customise the Model Tender Document to reflect the custom fields that would apply to all future procurements so that the document becomes a Model Tender Document for your Organisation. These are:

- a) Name of Custom Field and existing value: 'On behalf of' and 'President of India' ('the' article is in the text). In the Central Government entities, tenders are invited on behalf of the 'President of India'. No change is required for such entities. In the case of CPSE or States, this may be suitably changed to the 'Chairman and Managing Director (CMD)' or the 'Governor of -----'.
- b) Name of Custom Field and existing value: 'Procuring Organisation' and 'Procuring Organisation'. The Organisation's actual name can be substituted here (e.g., Department of Expenditure).
- c) Name of Custom Field and existing value: 'The Legal Head' and 'Head of the Procuring Organisation'. The Head of the Organisation usually is the authority that appoints Arbitrators and Conciliators. The authority's actual designation (for such appointments) can be substituted here (e.g., Jt Secretary).
- d) Name of Custom Field and existing value: 'Procuring Entity' and 'Procuring Entity'. This entity floats the Tender. The actual name of such entity can be substituted here (e.g., Procurement Policy Division).
- e) Name of Custom Field and existing value: 'Head of Procurement' and 'Head of Procurement'. The Head of the Procuring Entity is usually the competent financial authority for procurement matters. The authority's actual designation (for such procurement powers) can be substituted here (e.g., General Manager Procurement).
- f) Name of Custom Field and existing value: 'eProcurement URL' and 'https://eprocure.gov.in/eprocure/app'. This field is the URL address of the organisation's e-Procurement portal. If different than this, the actual URL used by the Organisation can be substituted here.
- g) Name of Custom Field and existing value: 'Tender Inviting Authority' and 'Tender Inviting Authority'. This officer (named TIA in the portal) uploads the Tender Document and is the nodal officer interacting with the e-Procurement portal. If more than one TIAs are there, then do this modification for each specific procurement document and not in the Organisation's Model Tender Document. Otherwise, actual designation (for such function) can be substituted here (e.g., Dy. Manager).
- h) Since such changes are not likely to alter the pagination, there is no need to update the Table of Content.

- i) After making these modifications save the file under a suitable name as the Model Tender Document for your Organisation. This Model Tender Document can be used in all future procurements of Goods in the Organisation.

5. Customise Model Tender Document for a specific Type of Tender Process

5.1 The Model Tender Document, and as it stands, is customised for Single Stage, Two Covers, Domestic Open Tenders through GePNIC eProcurement of general Goods.

With suitable customisation, it can be used for Capital Goods, Rate-Contract, Tender-cum-Auction; Single Cover, or the second stage of two-stage/ Pre-Qualification Bidding (PQB) after shortlisting of qualified bidders in the EoI/ PQB stage.

5.2 As a convention, in the Model Tender Document, all grey text in italics within curly brackets *{as at the beginning of TIS}* must be deleted before publishing. All grey text in italics within square/ box brackets *[as in the tabular entries in TIS]* must be replaced by appropriate information.

5.3 Instead of two Covers system of tendering, a Single Cover system

Make changes in the following sections of the Model Tender Document:

- a) Appendix to NIT (TIS) – in 1.0 Basic Details – No. of Covers
- b) Section III: AITB – in ITB 12.2.2

5.3 Instead of a Single-Stage Bidding system, the second stage of two-stage/ Pre-Qualification Bidding (PQB) after shortlisting of qualified bidders in the EoI/ PQB stage

Make changes in the following sections of the Model Tender Document:

- a) Appendix to NIT (TIS) – in 1.0 Basic Details – Bidding System
- b) Section III: AITB – in ITB 12.2.2

5.4 instead of Open Tender - Domestic a Global Tender Enquiry

Make changes in the following sections of the Model Tender Document:

- a) Appendix to NIT (TIS) – in 1.0 Basic Details – Tender Type
- b) Section III: AITB – in ITB 6.1.6 and 12.4.2. Here any other detail like currencies allowed to be quoted etc., may be added.

5.5 If an e-Reverse auction is to follow the usual Financial Bid opening in Tender-cum-Auction System

Make changes in the following sections of the Model Tender Document:

- a) Appendix to NIT (TIS) – in 1.0 Basic Details – e-Reverse Auction
- b) Section III: AITB – in ITB 12.4.3. Here any other relevant details may be added.

5.6 Procurement of Capital Goods/ Machinery and Plant

Special provisions are needed in case of such procurements. Make changes in the following sections of the Model Tender Document:

- a) Appendix to NIT (TIS) – in 1.0 Basic Details – Tender Category
- b) Section III: AITB – in ITB 6.1.3. Here any other relevant details may be added.
- c) Section V: SCC – in GCC 6.1, 6.6, 6.7. Also, mention any incidental works/ services required, e.g., installation, commissioning, operator’s training, AMC etc.

5.7 For entering into Rate Contracts

Special provisions are needed in case of such procurements. Make changes in the following sections of the Model Tender Document:

- a) Appendix to NIT (TIS) – in 1.0 Basic Details – Tender Type
- b) Section III: AITB – in ITB 13.1.3. Here any other relevant details may be added.
- c) Section V: SCC – GCC 10.1.6 – invoke applicability of fall clause.

6. Modify Custom Fields in Model Tender Document for a specific procurement

- a) Name of Custom Field and existing value: ‘Tender Inviting Authority’ and ‘Tender Inviting Authority’. If your Organisation has different TIAs for different tenders, then the actual designation of the TIA should be modified for each specific procurement, as per para 4 g) above. Otherwise, don’t change this field.
- b) Name of Custom Field and existing value: ‘Subject Matter of Procurement’ and ‘GOODS’. A short description of the Goods being procured is mentioned in the headers and at other places in the Tender Document. Substitute here the short description of Goods being procured (e.g., Printer Paper A4, white, 75 gsm). The Rate Contract tender process should mention ‘To enter into Rate Contracts for the supply of (name of the Goods)’.
- c) Name of Custom Field and existing value: ‘Document Number’ and ‘Tend No./ xxx’’. Tender (Reference) Number is mentioned in the headers and at other places in the Tender Document. Substitute the actual Tender Number here. You would not have to type this information repeatedly.

7. Filling data for a specific procurement

7.1 Portions that need not be modified for a specific procurement: A significant portion (75%) of the Model Tender Document need not be modified for a specific procurement. These portions are:

- a) Section I: Notice Inviting Tender (NIT): The NIT provides sufficient information to Bidders to help in deciding on participation. It gets customised through the custom fields as in para 4 and 6 above. It is designed to separate variable information in its appendix – Tender Information Summary (TIS). TIS also serves as a central repository of Tender parameters along with AITB (Appendix to ITB). Therefore, the NIT does not require modification for a specific procurement.
- b) Section II: Instructions to Bidders (ITB) – It provides instructions and information to Bidders regarding the Tender Process upto Letter of Award (LoA). ITB need not

be changed since any changes required are to be entered in Section III: Appendix to ITB (AITB).

- c) Section IV: General Conditions of Contract (GCC). It contains standard conditions of the contract. It is designed to be self-contained without reference to other sections, except SCC. GCC need not be changed since any changes required are to be entered in Section V: Special Conditions of Contract (SCC).
- d) All Bidding Forms are to be filled by the Bidders and should be left unchanged.
- e) All Formats also are to be left unchanged

7.2 Portions to be filled in for a specific procurement: A small portion (approx. 10%) of the Model Tender Document need to be modified for a specific procurement. These are:

- a) Tender Information Summary (TIS, appendix to NIT) contains variable information of the NIT. It supplements AITB in providing salient parameters of Tender in tabular form, which used to be earlier interspersed all over the older Tender Documents. Sufficient guidance is written in the TIS to guide you in filling it. Also, see para 5 above.
- b) Section III: AITB modifies the standard provisions of ITB. Sufficient guidance is written in the AITB to guide you in filling it. Also, see para 5 above.
- c) Section V: SCC modifies the standard provisions of GCC. Sufficient guidance is written in the SCC to guide you in filling it. Also, see para 5 above.
- d) There are specific clauses that act like double-edged swords and are appropriate only for restricted procurement situations. Their use in regular procurement may enhance risk perception (and quoted prices) by the Bidder without any commensurate benefit to the Procuring Entity. These clauses are enabled as dormant and shall not apply unless expressly invoked in the SCC. So, if warranted, explicitly enable these, e.g. in the case of Rate Contract (para 5.7 above), Fall Clause should be expressly invoked.
 - GCC-clause 5.10 (Book Examination clause): This is too onerous for the Bidder and is rarely used and may be relevant only for an exceptionally high-value procurement where undue profiteering is an assessed risk. The Bidder would hedge his prices for the perceived costs and disruptions.
 - GCC-clause 5.12 (Labour Codes and Related Obligations): This usually is not relevant in the procurement of Goods, except rarely in large Capital Goods procurements, involving a significant presence of contractor's personnel during installation and testing.
 - GCC-clause 6.5 (Quantity Option clause): This may be useful for repetitive annual/ long-term procurements, where quantity forecast has large variability. In inappropriate situations, the Bidder may hedge his prices for the uncertainty in quantity.
 - GCC-clause 10.1.6 (Fall clause): This may be useful in long-term procurements (e.g. Rate-contracts) for goods procured by many agencies

or where prices typically decrease due to technological trends. In inappropriate situations, it may prevent the bidders from passing the benefits of a downward trend of prices in subsequent procurements.

- e) Section VI: Schedules of Requirements specifies Scope of supplies, Delivery Terms, Delivery Schedule, Logistics requirements. Section VI may be filled to reflect the complete scope of the requirement. The requirements may consist of more than one schedule. Each schedule may contain more than one Goods. Description of Goods here should be detailed enough but should leave technical aspects to Section VII: Technical Specifications and Quality Assurance. Pay special attention if incidental works/ services are included, especially in Capital Goods, Machinery & Plant (Para 5.6 above).
- f) Section VII: Technical Specifications & Quality Assurance mentions the technical specifications and quality assurance requirements. Mention here Warranty obligations, Environmental compliance, Energy-saving requirements, e.g., BEE star classification etc., if not covered elsewhere in Tender Documents. Mention type of Inspection, Inspection agency, Tests required etc., if not covered in Technical Specification.
- g) Section VIII: Qualification Criteria details the qualification criteria distinguished from the eligibility criteria mentioned in NIT-clause 3. Qualification Criteria should be commensurate with the expertise required to supply Goods to required standards and quality since unduly onerous qualification criteria would restrict competition and lead to higher prices. If the procurement is minor or routine, qualification criteria may be simplified. Guidance is provided in filling this schedule in the Model Tender Document. Please refer to Annexure 9 (as amended to date) of the Manual for Procurement of Goods, 2017, for further guidance. Also mention, If any, and to what extent dispensation from Qualification Criteria shall be permissible for Start-ups under ITB 4.3.2-2) and to MII-JVs under ITB 4.1.8-2. Pay special attention in the case of Capital Goods, Machinery & Plant and Rate Contracts, where detailed qualification criteria would be required.
- h) After this, the customisation of the Tender Document is complete. Now update the Table of content by clicking on the 'Update Table' on the Reference menu, Table of content. Select 'Update page numbers only'.

- i) **Price Schedule (BOQ)** should be compatible with the CPPP portal. Hence a suitable BoQ template (item rate BOQ Template) may be downloaded from the portal and filled up for uploading. Screenshots of sample BoQ from the CPPP portal are annexed for guidance.

FOREWORD

Government organisations procure various goods and services and execute works to fulfil their duties and responsibilities. To improve good governance, transparency, fairness, competition, and value for money in public procurement, the Government of India has taken a number of significant policy initiatives in public procurement in the recent past. The General Financial Rules were revised comprehensively in March 2017, covering inter-alia this set of new initiatives. Consequently, the Manual for Procurement of Goods, 2017; Manual for Procurement of Consultancy and Other Services, 2017 and Manual for Procurement of Works, 2019 were also developed.

2. Tender documents are the ultimate vehicle for implementing such policy initiatives on the ground. If all procurements use a uniform set of tender documents, the impact of policy initiative gets amplified, bringing economies of scale and increased competition. Bidders also get broader market access for their products.

3. Procurement of Non-consultancy Services is growing leaps and bounds, yet it is here that the lack of such uniform Model Tender Documents is particularly stark, more so because of challenges posed by diverse forms of Service contracts – Time-based, Unit-rate, indefinite-delivery (On-call), Lumpsum or Percentage-based etc. Therefore, this generic Model Tender Document for Non-consultancy Services has been developed and is designed for easy customisation for different forms of contracts for non-Consultancy Services.

4. Therefore, this Model Tender Document (MTD) has been developed for the procurement of non-Consultancy Services. This MTD rationalises and simplifies the usual structure of tender documents. Besides aligning its provisions with various procurement policies, it incorporates national and international best practices and breaks some new ground. In two stages, extensive consultations were done with Ministries/ Departments/ Central Public Sector Undertakings (CPSUs), other organisations and individuals to develop this document. A unique feature of this MTD is its availability as a software template which can be customised with the names and requirements of user organisations.

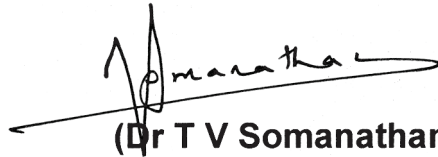

Contd...2/-

5. Detailed guidance is provided at appropriate places in the MTD, and a separate detailed Guidance Note is also attached to help the procuring officials.

6. MTDs issued by this Department are to be taken as guiding templates. Ministries/ Departments are advised to suitably customise this document to suit their local/ specialised needs. Government e-Marketplace (GeM), Central Public Procurement Portal (CPPP) and other e-procurement portals are expected to host this MTD on their portals so as to help procuring entities to customise and make use of the MTD. This is first edition of the MTD and this Department welcomes any suggestion or comment on this document for further improvement.

7. I would like to acknowledge the lead taken by Shri Sanjay Aggarwal, Advisor (PPD), Shri Kanwalpreet, Director (PPD) and the role of Shri Girish Bhatnagar, Consultant (Public Procurement) in the development of this Model Tender Document. I would also like to thank Ministries, Departments, other organisations, and individuals who reviewed the drafts of the Model Tender Document and provided their valuable inputs.

8. I hope that this Model Tender Document will help procuring officials working in various Ministries/ Departments and Public Enterprises as a guiding template, deepen the impact of policy initiatives mentioned above and improve the ease of doing business with the Government.

Unless otherwise stipulated following procedure shall be followed:

1) Shortlisting of bidders eligible to participate in e-Reverse Auction:

- (a) The bids disallowed from participating in the Reverse Auction(e-RA) shall be the highest bidder(s) in the tabulation of prices in the financial bid. If the highest bidders quote the same rate, the Price Offer received last, as per the time log of the Portal, shall be removed first, on the principle of last in first out by the system.
- (b) If the number of valid bidders is less than the minimum stipulated number (or 3 if not specified), a Reverse auction shall not be conducted, and the financial bids shall be evaluated. In the case of 4 to 6 valid bidders lowest three (3) bidders shall be allowed to participate in the reverse auction. In the case of more than 6 valid bidders, only 50% of the bidders (rounded up to next integer) shall be allowed to participate.
- (c) However, if MSE bidders or Class-I Local suppliers under the Make in India policy do not come under the above criteria, but their prices in financial bids are within the policy's margin of preference, they shall be allowed to participate. Such bidders would be over and above the short-list mentioned above.

2) Reverse Auction Process (RAP)

Note: If the Portal RAP process is different from the one described below, the portal provisions shall prevail.

- (a) Upon opening the financial bids, a reverse auction platform shall be created. The reverse auction shall start within the specified period (two hours if not specified) of the bid. There shall be no participation fees for the e-Reverse auction.
- (b) Unless modified by TIA, L-1 landed price in financial bid (as per the calculation schema based on the Tender Document evaluation criteria) shall be the start bid price on which the auction shall be initiated.
- (c) The TIA shall specify the decrement value before starting the e-Reverse Auction (or, if not specified, 0.5% of the start bid price rounded off to the next unit, tens, hundreds, thousands etc., with a minimum of Rs. 1). The reduction shall have to be made as per decrement value or in multiple thereof.
- (d) An initial period of the reverse auction shall be as stipulated (or two hours if not specified). All times and periods are as per server time-stamp. There shall be auto extensions of time by specified minutes (ten minutes if not specified) in case of any reduction recorded in the last auto-extension period. The

Maximum number of auto extensions shall be as stipulated (or 50 if not stipulated).

- (e) In case of service disruption at the service provider's end during the reverse auction, the reverse auction process shall start all over again, with the last recorded lowest price of prematurely ended RAP as the 'Start bid' price. The prices quoted in the prematurely ended RAP shall be binding on all the bidders for consideration if the restarted process does not trigger within the stipulated time (or by 5.00 pm on the same day, if not stipulated). Disruption and restarting of RAP shall be intimated to all the bidders through system/ SMS/ e-mail through the e-procurement portal.
- 3) Bidders must submit only the landed price in the reverse auction, and only the item-wise L-1 price shall be displayed without disclosing the number of bids and names of the bidders. The landed price would not be the same for two bidders, even if any bidder makes such an attempt. While evaluating the bids, the exchange rate captured by the e-procurement system shall be considered for converting foreign currency into Indian Rupees.
 - 4) On the auction's closing time expiry, the bid history showing all the last valid bids offered along with the name of the bidders shall be published. All bidders shall have the facility to see and get a print of the same for their record.
 - 5) All electronic bids submitted during the reverse auction process shall be legally binding on the bidder. Only the chronologically last bid submitted by Bidder until the end of the auction shall be considered the valid financial bid of Bidder, and consideration of the same for entering into a contract by the Procuring Entity shall bind on the bidder. If a bidder does not submit his bid in the Reverse Auction, the price quoted in the financial bid shall be considered the valid price of that bidder. The status of Bidder (L-1, L-2 etc.) shall be evaluated considering either the bid price submitted in Reverse auction or the Price quoted in the financial bid, whichever is lower.
 - 6) The successful L-1 bidder, after the reverse auction, has to upload within a stipulated period (within 2 working days, if not specified) the breakup of Landed Prices in the shortfall documents, at which the contract shall be awarded. While giving the breakup, the Bidder shall include the same taxes and duties as quoted while submitting the financial bid. If the L-1 bidder fails to submit the breakup of landed price within the stipulated period, the Procuring Entity shall place an order based on the breakup of the financial bid submitted by Bidder, and the same shall be binding on the bidder.
 - 7) **Purchase Preference**
Short-listed bidders, eligible for any purchase preference policy as per the Tender Document, shall get an opportunity to match the L-1 prices concluded after the reverse auction if their final prices in Reverse Auction fall within the permitted percentage.

In such cases, the bidders should not quote for less than 25% of the tendered quantity; otherwise, their offer shall be rejected as nonresponsive. Unless otherwise stipulated in the AITB, in case of splitting in two and three, the ratio of 70:30; 50:30:20, respectively shall be used. This Guidance note would help customise the Model Tender Document for your Organisation and each specific procurement of Services.

Guidance Note for the Services - Model Tender Document

1. Applicability

1.1 This Model Tender Document is advisory and aims to facilitate Procuring Entities in preparing Tender Documents for Procurement of Non-consultancy Services. The document is based on General Financial Rules 2017, Manual for Procurement of Consultancy and Other Services 2017 as amended until publishing. This document does not intend to replace alternative Tender Document as agreed (if any) with the Multilateral Development Banks (MDBs), i.e. The World Bank, Asian Development Bank etc., for procurements financed by loans/ grants extended by such MDBs.

1.2 This Document is for use by Central Government Ministries/ Departments and their attached and subordinate offices, Central Public Sector Entities, Autonomous Bodies and Statutory Bodies. There is no restriction on its adoption by State Governments or other agencies

1.3 Major Non-consultancy Services procuring Ministries/ Departments and certain large CPSEs, who have well-established Tender Documents for their unique individual requirement may continue to use such documents. They may, however, use this document for guidance to revise their documents.

1.4 The Model Tender Document is generic for open tenders through the GePNIC portal. It is not suitable for procurement of Non-consultancy Services below the threshold for Open Tender as per para 9.6.2 of Manual for Procurement of Consultancy & Other Services, 2017 (Rs 10 Lakh, or any other amount in your Schedule of Powers), which require only a short Tender Document.

2. Nomenclature Conundrum

There is no standardised nomenclature in Public Procurement in India, and a mix of American, European, and British/ Indian nomenclature has become common. 'Tender' is taken to mean (i) 'Tender Document' or 'Tender Process' as well as (ii) the 'Bid' submitted by the bidders. The Tender Document floated by Procuring Entity is also called a Bid Document. Similarly, participants in a Tender are alternatively called tenderers and bidders. This duality is reflected in "Notice Inviting Tenders' and 'Instructions to Bidders' etc.

Although this is not an appropriate forum to discuss this topic in detail that it deserves, an attempt is made to standardise for this document 'Tender' for the (i) above and Bid for (ii) and hence Bidder is used instead of Tenderer, and the document is being called 'Tender Document' instead of 'Bid Document'. Similar attempts are made to standardise other nomenclature in this document without disturbing the nomenclature embedded in the CPPP portal.

3. The process to modify Custom fields in the generic Model Tender Document to suit your Organisation and a specific procurement

3.1 Certain generic variables used throughout the document are embedded as the Custom fields in the word file. These fields (refer para 4 and 6 below) can be changed

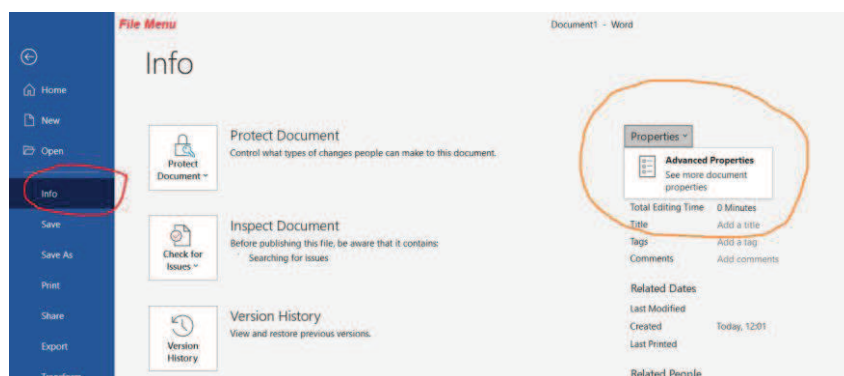

Guidance Note for Procuring Entities

in one go throughout the document (including headers and footers) to suit your Organisation. The process to change these fields in the Model Tender Document file is as follows:

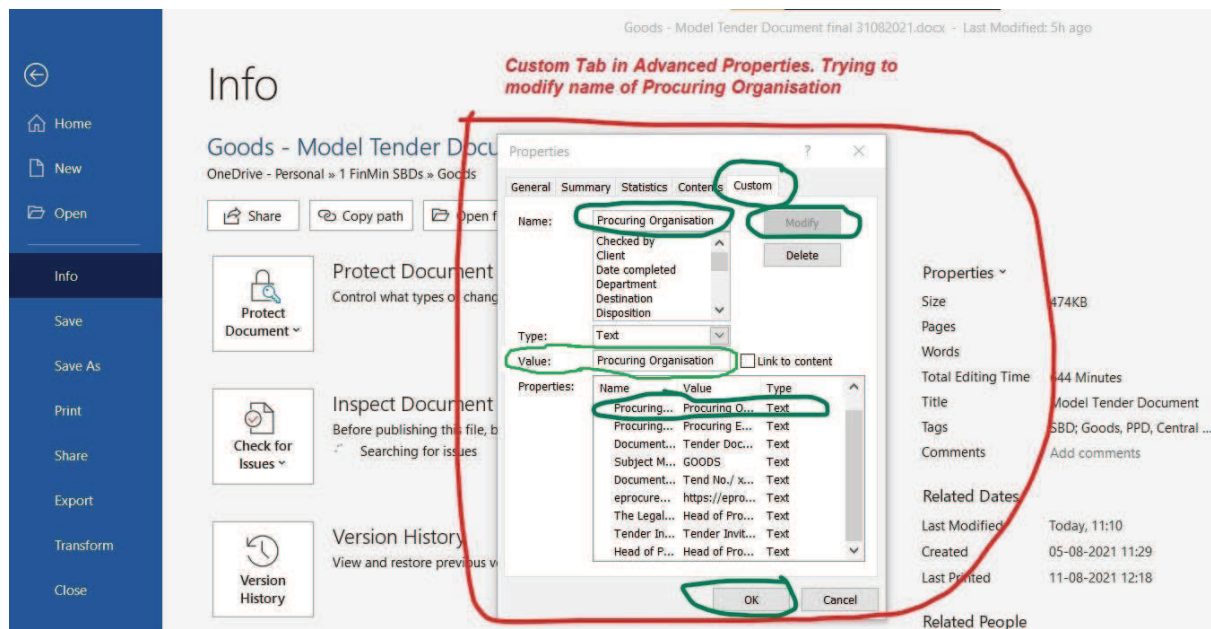

- a) Click 'File' (top left) menu, and in the "File" menu, select 'Info' (4th from top) on the left side panel

- b) On the right-side panel of Info is 'Properties' and dropdown to click 'Advanced Properties'

- c) Select the 'Custom' tab in 'Advanced Properties'.
- d) Select the specific property in the custom tab and 'Modify' in the 'value' box and click 'OK' to save.

- e) Make such changes to all the fields to be changed.
- f) To populate these changed fields throughout the document (including headers or footers): from the editing menu, 'select all' (or Ctrl+A to select all text) to select the whole document.

- g) Press F9 to update all fields (some computers need Fn+F9). Verify if changes have occurred in the document.
- h) Save the Model Tender Document file under a new name.

4. Customise Model Tender Document to serve as a Model Tender Document for your Organisation.

Firstly, customise the Model Tender Document to reflect the custom fields that would apply to all future procurements so that the document becomes a Model Tender Document for your Organisation. These are:

- a) Name of Custom Field and existing value: 'On behalf of' and 'President of India' ('the' article is in the text). In the Central Government entities, tenders are invited on behalf of the 'President of India'. No change is required for such entities. In the case of CPSE or States, this may be suitably changed to the 'Chairman and Managing Director (CMD)' or the 'Governor of -----'.
- b) Name of Custom Field and existing value: 'Procuring Organisation' and 'Procuring Organisation'. The Organisation's actual name can be substituted here (e.g., Department of Expenditure).
- c) Name of Custom Field and existing value: 'The Legal Head' and 'Head of the Procuring Organisation'. The Head of the Organisation usually is the authority that appoints Arbitrators and Conciliators. The authority's actual designation (for such appointments) can be substituted here (e.g., Jt Secretary).
- d) Name of Custom Field and existing value: 'Procuring Entity' and 'Procuring Entity'. This entity floats the Tender. The actual name of such entity can be substituted here (e.g., Procurement Policy Division).
- e) Name of Custom Field and existing value: 'Head of Procurement' and 'Head of Procurement'. The Head of the Procuring Entity is usually the competent financial authority for procurement matters. The authority's actual designation (for such procurement powers) can be substituted here (e.g., General Manager Procurement).
- f) Name of Custom Field and existing value: 'eProcurement URL' and 'https://eprocure.gov.in/eprocure/app'. This field is the URL address of the organisation's e-Procurement portal. If different than this, the actual URL used by the Organisation can be substituted here.
- g) Name of Custom Field and existing value: 'Tender Inviting Authority' and 'Tender Inviting Authority'. This officer (named TIA in the portal) uploads the Tender Document and is the nodal officer interacting with the e-Procurement portal. If more than one TIAs are there, then do this modification for each specific procurement document and not in the Organisation's Model Tender Document. Otherwise, actual designation (for such function) can be substituted here (e.g., Dy. Manager).
- h) Since such changes are not likely to page pagination, there is no need to update the Table of Content.

- i) After making these modifications save the file under a suitable name as the Model Tender Document for your Organisation. This Model Tender Document can be used in all future procurements of Non-consultancy Services in the Organisation.

5. Customise Model Tender Document for a specific Type of Tender Process

5.1 The Model Tender Document for Non-consultancy Services, and as it stands, is customised for Single Stage, Two Covers, Domestic Open Tenders, ⁸Time-based (inputs admeasurement) type of BOQ/ contract through GePNIC eProcurement.

With suitable customisation, it can be used for ⁹Unit-Rate (Output admeasurement) definite delivery, ¹⁰Unit-Rate (output admeasurement) -Indefinite-delivery (Retainership/ framework/ On-call), ¹¹ Lump-sum, ¹² Percentage-Based types of Contracts. Customisation can also be done for Tender-cum-Auction, Single Cover, or the second stage of two-stage/ Pre-Qualification Bidding (PQB) after shortlisting qualified bidders in the Eol/ PQB stage.

5.2 As a convention, in the Model Tender Document, all grey text in italics within curly brackets {*as at the beginning of TIS*} must be deleted before publishing. All grey text in italics within square/ box brackets [*as in the tabular entries in TIS*] must be replaced by appropriate information.

5.3 Instead of two Covers system of tendering, a Single Cover system

Make changes in the following sections of the Model Tender Document:

- a) Appendix to NIT (TIS) – in 1.0 Basic Details – No. of Covers
- b) Section III: AITB – in ITB 12.2.2

5.4 Instead of a Single-Stage Bidding system, the second stage of two-stage/ Pre-Qualification Bidding (PQB) after shortlisting of qualified bidders in the Eol/ PQB stage

Make changes in the following sections of the Model Tender Document:

- a) Appendix to NIT (TIS) – in 1.0 Basic Details – Bidding System
- b) Section III: AITB – in ITB 12.2.2

5.5 instead of Open Tender - Domestic a Global Tender Enquiry

Make changes in the following sections of the Model Tender Document:

- a) Appendix to NIT (TIS) – in 1.0 Basic Details – Tender Type
- b) Section III: AITB – in ITB 6.1.6 and 12.4.2. Here any other detail like currencies allowed to be quoted etc., may be added.

⁸ Relevant for outsourcing of Facility Management; Housekeeping, Training, Advisory Services, Construction Supervision

⁹ per unit of quantum of output e.g., Kms or Tonne-Km in Transportation or hour/ day/ month

¹⁰ On-call Services e.g., Carpentry, Taxi Service on per unit-rate

¹¹ say one-time deep cleaning service for the office block

¹² of Value of Transactions e.g., value of goods in Quality Assurance or Procurement Services

5.5 If an e-Reverse auction is to follow the usual Financial Bid opening in Tender-cum-Auction System

Make changes in the following sections of the Model Tender Document:

- a) Appendix to NIT (TIS) – in 1.0 Basic Details – e-Reverse Auction
- b) Section III: AITB – in ITB 12.4.3. Here any other relevant details may be added.

5.6 For different Forms of BOQ/ Contracts - Unit Rate (Output admeasurement), Indefinite-delivery (Rate-contract/ on-call), Lump-sum, Percentage-Based

Special provisions are needed for different forms of BOQ/ Contract. Make changes appropriate to the selected form of BOQ/ Contract in the following sections of the Model Tender Document:

- a) Appendix to NIT (TIS) – in 1.0 Basic Details – Price Structure
- b) Section III: AITB – in ITB 5.5. Here mention the form of BOQ/ Contract and its relevant details. Also, mention if separate prices are to be quoted for inputs deployed – Personnel, Equipment, Materials and Miscellaneous.

6. Modify Custom Fields in Model Tender Document for a specific procurement

- a) Name of Custom Field and existing value: 'Tender Inviting Authority' and 'Tender Inviting Authority'. If your Organisation has different TIAs for different tenders, then the actual designation of the TIA should be modified for each specific procurement, as per para 4 g) above. Otherwise, don't change this field.
- b) Name of Custom Field and existing value: 'Subject Matter of Procurement' and 'Non-consultancy Services'. A short description of the Services being procured is mentioned in the headers and at other places in the Tender Document. Substitute here the short description of Services being procured (e.g. Housekeeping Services for Hospital).
- c) Name of Custom Field and existing value: 'Document Number' and 'Tend No./ xxx'. Tender (Reference) Number is mentioned in the headers and at other places in the Tender Document. Substitute the actual Tender Number here. You would not have to type this information repeatedly.

7. Filling data for a specific procurement

7.1 **Portions that need not be modified for a specific procurement:** A significant portion (75%) of the Model Tender Document need not be modified for a specific procurement. These portions are:

- a) Section I: Notice Inviting Tender (NIT): The NIT provides sufficient information to Bidders to help in deciding on participation. It gets customised through the custom fields as in para 4 and 6 above. It is designed to separate variable information in its appendix – Tender Information Summary (TIS). The TIS also serves as a central repository of Tender parameters and AITB (Appendix to ITB). Therefore, the NIT does not require modification for a specific procurement.
- b) Section II: Instructions to Bidders (ITB) – It provides instructions and information to Bidders regarding the Tender Process upto Letter of Award (LoA). ITB need not

be changed since any changes required are to be entered in Section III: Appendix to ITB (AITB).

- c) Section IV: General Conditions of Contract (GCC). It contains standard conditions of the contract. It is designed to be self-contained without reference to other sections, except SCC. GCC need not be changed since any changes required are to be entered in Section V: Special Conditions of Contract (SCC).
- d) All Formats also are to be left unchanged

7.2 Portions to be filled in for a specific procurement: Special provisions are needed for different forms of BOQ/ Contract. In Model Tender Document, the existing form of BOQ/ Contract is Time-Based (Input admeasurement), which is a more complex form, so that all the sub-schedules (in Section VII and VIII) and corresponding sub-forms (in Form 3 and 4) could be show-cased. However, most services would use the Unit-Rate (output admeasurement) form of BOQ/ contract. In Unit-Rate and other forms of BOQ/ Contract, such sub-schedules and corresponding sub-forms may not be required and omitted. A small portion (approx. 15%) of the Model Tender Document need to be modified for a specific procurement. Make changes appropriate to the selected form of BOQ/ Contract in the following sections of the Model Tender Document:

- a) Tender Information Summary (TIS, appendix to NIT) contains variable information of the NIT. It supplements AITB in providing salient parameters of Tender in tabular form, which used to be earlier interspersed all over the older Tender Documents. Sufficient guidance is written in the TIS to guide you in filling it. Also, see para 5 above.
- b) Section III: Appendix to ITB (AITB) modifies the standard provisions of ITB. Sufficient guidance is written in the AITB to guide you in filling it. Also, see para 5 above.
- c) Section V: SCC modifies the standard provisions of GCC. Sufficient guidance is written in the SCC to guide you in filling it. Also, see para 5 above.
- d) A clause like the Book Examination clause (GCC-clause 5.9) is too onerous for the Bidder and may be relevant only for an exceptionally high-value procurement where undue profiteering is an assessed risk. Its use in regular procurement may enhance risk perception (and quoted prices) by the Bidder without any commensurate benefit to the Procuring Entity. This clause is enabled as dormant and shall not apply unless expressly invoked in the SCC. It warranted this clause may be explicitly invoked in the SCC.
- e) Section VI: Schedules of Requirements describes background, purpose, deliverables/ outcomes, description, and Scope of Services. The requirements may consist of more than one schedule, and each may contain more than one Service. Guidance is provided in filling this schedule in the Model Tender Document. Mention here the form of the BOQ/ Contract proposed since that would have a bearing on the following Schedules.

- f) Section VI-1: Services and Activity Schedule details the frequency/ Shifts/ duration, timelines/ milestones, and quantum of Services. Keep the form of the BOQ/ Contract in mind while filling in details. Guidance is provided in filling this schedule in the Model Tender Document. Make corresponding modification in Form 2: Schedule of Requirement – Compliance (Services and Activity Schedule).
- g) Section VII: Performance Standards & Quality Assurance mentions the performance standards and quality assurance requirements. Guidance is provided in filling this schedule in the Model Tender Document.
- h) Section VII-1: Method Statement describes the methodology to achieve the performance standards and quality. Guidance is provided in filling this sub-schedule in the Model Tender Document. If the Service is well-established, this may be kept brief or omitted. If omitted, Sub-Form 3.1: Method Statement should also be omitted.
- i) Section VII-2: Work-Plan describes the programming/ timelines/ milestones and dependencies/ sequencing of services to achieve the performance standards and quality. Guidance is provided in filling this sub-schedule in the Model Tender Document. If the Service is minor or routine, this may be kept brief or omitted. If omitted, Sub-Form 3.2: Work-Plan should also be omitted.
- j) Section VII-3: Critical Materials Schedule: In the case of Time-Based (Input Admeasurement), list materials critical for the performance of Services to the desired quality and standards. As seen from Sample 1 Simplified Time-Based (Input Admeasurement) BOQ below, even in simple Item-Based BOQ, this detailed sub-form can be omitted. This sub-schedule may not be essential for other forms of BOQ/ Contract, but list these if required to achieve the performance standards and quality. If the Service is not dependent on any critical materials, this may be omitted. If omitted, Sub-Form 3.5: Critical Materials Deployment Plan should also be omitted.
- k) Section VIII: Qualification Criteria details the qualification criteria (Similar experience, Performance capability – Key Personnel and Critical equipment, Financial capability – Viability, Turnover and Liquidity) as distinguished from the eligibility criteria mentioned in NIT-clause 3. Qualification Criteria should be commensurate with the expertise required to perform the Service to required standards and quality since unduly onerous qualification criteria would restrict competition and lead to higher prices. If the Service is minor or routine, qualification criteria may be simplified. Guidance is provided in filling this schedule in the Model Tender Document. Please refer to Annexure 9 of the Manual for Procurement of Goods, 2017, for further guidance. Also mention, If any, and to what extent dispensation from Qualification Criteria shall be permissible for Start-ups under ITB 4.3.2-2) and to MII-JVs under ITB 4.1.8-2. Pay special attention to forms of BOQ/ Contract other than Time-Based, where

Key Personnel/ Critical equipment may not be essential. Make corresponding modification in Form 4: Qualification Criteria – Compliance.

- l) Section VIII-1: Key Personnel Schedule: In the case of Time-based (Input Admeasurement), describe the key Personnel required (Managers/ Supervisors/ Executives/ Specialists/ Technicians) for each location, estimated number, and length of engagement to carry out the services to required standards and quality. Guidance is provided in filling this sub-schedule in the Model Tender Document. As seen from Sample 1 Simplified Time-Based (Input Admeasurement) BOQ below, even in simple Item-Based BOQ, this detailed sub-form can be omitted. For forms of BOQ/ Contract other than Time-Based, Key Personnel may not be essential – but list these if required to achieve the performance standards and quality. If the Service is not dependent on any Key Personnel, this may be omitted. If omitted, Sub-Form 3.3: Personnel Deployment Plan should also be omitted.
- m) Section VII-2: Critical Equipment Schedule: In the case of Time-based (Input Admeasurement), list equipment critical for the performance of Services to the desired quality and standards. As seen from Sample 1 Simplified Time-Based (Input Admeasurement) BOQ below, even in simple Item-Based BOQ, this detailed sub-form can be omitted. Critical equipment may not be essential for other forms of BOQ/ Contract, but list these if required to achieve the performance standards and quality. If the Service is not dependent on any critical equipment, this may be omitted. If omitted, Sub-Form 3.4: Critical Equipment Deployment Plan should also be omitted.
- n) If a sub-schedule or sub-Form is to be omitted, it would be better to keep these and write “Deleted” across it to maintain the structure of the Tender Document.
- o) After this, the customisation of the Tender Document is complete. Now update the Table of content by clicking on the ‘Update Table’ on the Reference menu, Table of content. Select ‘Update page numbers only’.

- p) Price Schedule (BOQ) should be compatible with the CPPP portal. Hence a suitable BoQ template (item rate BOQ Template) may be downloaded from the

portal and filled up for uploading. Screenshots of the following sample BoQ from the CPPP portal are annexed for guidance.

- i. Sample 1 Simplified Time-Based (Input Admeasurement) BOQ, without detailed Input Sub-forms
- ii. Sample 2 Unit-Rate (output admeasurement) – Definite-Delivery BOQ
- iii. Sample 3 Unit-Rate (output admeasurement) – Indefinite-Delivery (Retainership/ on-call) BOQ
- iv. Sample 4 Lumpsum BOQ
- v. Sample 5 Percentage-Based BOQ

Samples of a fully detailed Time-Based (Input admeasurement) BOQ with all its sub-forms is not available on CPPP. Hence an Exhibit with 4 sub-forms is also annexed after the above Samples.
