**ULY, 2020**

**Ph.D Programmes**

Ph.D in - Aquaculture, Aquatic Animal Health Management, Aquatic Environment and Management, Fisheries Economics, Fisheries Extension, Fish Biotechnology, Fish Genetics, Fish Nutrition & Feed Technology, Fish Physiology & Biochemistry, Fisheries Resources Management, Post Harvest Technology

Ph.D in - Agricultural Chemistry & Soil Science, Agricultural Economics, Agronomy, Entomology, Extension Education, Horticulture, Molecular Biology & Bio-technology, Nematology, Plant Breeding & Genetics, Plant Pathology

Ph.D in - Farm Machinery & Power Engineering, Irrigation Water Management Engineering, Post Harvest Engineering, Processing & Food Engineering, Renewable Energy Engineering, Soil & Water Conservation Engineering

Ph.D Home Science - Foods and Nutrition, Human Development and Family Studies, Family Resource Management, Textiles and Apparel Designing, Home Science Extension and Communication Management.

| Ph.D Ag. in - Agronomy, Genetics and Plant Breeding, Plant Physiology, Agricultural Economics, Extension Education, Agricultural Entomology, Plant Pathology, Soil Science & Agricultural Chemistry                                                                                                                                                                                                                      |
|                                                                                                                                                                                                                                                                                                                                                                                                                          |
|                                                                                                                                                                                                                                                                                                                                                                                                                          |
| Ph.D Agricultural Engineering in - Processing and Food Engineering, Farm Power and Machinery Engineering, Irrigation and Drainage Engineering, Soil and Water Conservation Engineering, Renewable Energy Sources Engineering                                                                                                                                                                                             |

|                                                                                                                                                                                                                                                                                                       |
|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Ph.D in - Fisheries Resource Management, Aquaculture, Fish Nutrition and Feed Technology, Aquatic Environment Management, Fish Processing Technolog, Fisheries Extension                                                                                                                              |
| Ph.D. Agricultural Entomology, Agronomy, Agricultural Economics, Extension Education, Genetics & Plant Breeding, , Plant Pathology, Seed Sciences & Technology, Soil Science & Agricultural Chemistry                                                                                                 |
| Ph.D. Processing & Food Engineering, Farm Machinery and Power Engineering, Soil and Water Engineering                                                                                                                                                                                                 |
|                                                                                                                                                                                                                                                                                                       |
|                                                                                                                                                                                                                                                                                                       |
| Ph.D. in Agri-business Management, Agricultural Economics, Agricultural Entomology, Agricultural Extension Education, Microbiology, Agronomy, Molecular Biology and Biotechnology, Crop Physiology, Genetics & Plant Breeding, Horticulture, Plant Pathology, Seed Science & Technology, Soil Science |
|                                                                                                                                                                                                                                                                                                       |
|                                                                                                                                                                                                                                                                                                       |

|                                                                                                                                                                                                                                               |
|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Ph.D. in Forest Biology & Tree Improvement, Natural Resource Management, Silviculture & Agroforestry,                                                                                                                                         |
| Ph.D. in Extension & Communication Management, Family Resource Management, Food Science & Nutrition, Human Development & Family Studies, Textile & Apparels Designing,                                                                        |
| Ph.D. Agronomy, Entomology, Agrometeorology, Biotechnology, Extension Education, Food Technology, Ph.D. Horticulture (Fruit Science), Floriculture & Landscaping, Vegetable Science, Plant Breeding & Genetics, Plant Pathology, Soil Science |
| Ph.D. Agricultural Economics, Biochemistry, Microbiology                                                                                                                                                                                      |
| Ph.D. Farm Machinery and Power Engineering, Soil and Water Engineering, Processing and Food Engineering, Energy Sources & Technology                                                                                                          |
| Ph.D. Home Science (Human Development Family Studies), (Extension Education & Communication Management), (Family Resource Management), (Food & Nutrition), (Apparel & Textile Science)                                                        |
| Ph.D. in-Agriculture Economics, Agronomy, Entomology, Extension Education, Horticulture, Genetics and Plant Breeding, Plant Pathology, Soil Science and Agricultural Chemistry                                                                |
|                                                                                                                                                                                                                                               |
|                                                                                                                                                                                                                                               |

Ph.D Ag. in - Agricultural Economics,  
Agronomy, Animal Husbandry & Dairying,  
Extension Education, Genetics & Plant  
Breeding, Horticulture, Plant Physiology,  
Soil Science & Agricultural Chemistry

Ph.D in - Aquaculture (AQC), Fisheries  
Resource Management (FRM)

Ph.D in - Agricultural Chemistry & Soil  
Science, Genetics & Plant Breeding,  
Horticulture-Floriculture & Landscaping,  
Horticulture-Fruit Science, Horticulture-  
Vegetable Science,Livestock Production  
& Management

Ph.D. in Agronomy, Agricultural Economics, Agricultural Extension, Entomology, Genetics & Plant Breeding, Seed Science & Technology, Agricultural Microbiology, Soil Science & Agricultural Chemistry, Plant Pathology, Horticulture

Ph.D Ag. in - Agronomy, Genetics and Plant Breeding, Vegetable Sciences, Floriculture and Landscaping, Fruit Production and Post Harvest technology, Plant Pathology, Extension, Economics, Seed Science and Technology, Soil Sciences
